

Mohamed Eliyas

SUMMARY

A versatile Software Developer with 3.5 years of experience in front-end and back-end development, with a strong ability to collaborate in cross-functional teams and adapt to fast-paced environments. Passionate about solving complex problems and enhancing user experience through innovative solutions.

EXPERIENCE

Software Developer Photon Interactive Private limited - Chennai, India
12/2024 - Current

- Developing a data analytics platform for KFC.com, enabling real-time insights and performance tracking across digital channels.
- Building a scalable eCommerce application for GTF using NestJS, enhancing the online shopping experience and backend efficiency.
- Collaborating in a cross-functional team to deliver robust, production-grade applications with a focus on performance, scalability, and clean architecture.

Junior Software Developer Sensiple Software solutions - Chennai, Tamilnadu
10/2021 - 10/2024

- Developed and led IVR software solutions for INTRADO (REI & RCN projects), achieving 75%+ successful call completion and supporting 100K+ users monthly, significantly enhancing customer experience and operational efficiency.
- Designed scalable IVR systems using microservices architecture, integrating Docker, Kubernetes, and RESTful APIs to ensure high performance and maintainability.
- Optimized data handling with NoSQL databases and collaborated in cross-functional teams to deliver projects on time, improving system latency and interdepartmental coordination.

PROJECTS COMPLETED

1.IVR Development - (1.5 years)

- Recreational Equipment, Inc. (REI)
- Astound RCN
- Stored Value Solutions (SVS)

2.Chatbot IVR (5 Months)

- Dialogflow CX

3.Web Development - (1 year)

- Cloudsens.ai
- Sensiple.com

4. Data Analytics- (6-months)

- KFC.com

5. E-commerce Application(3-months)

- GTF(FocusBrands.com)

EDUCATION

Bachelor Of Engineering: Electronics and Communications
Anna University - Chennai, TN, 2019
June 2015 to May 2019
Score - 7.01 CGPA
